Water: the elixir of life

ORGANO – for a vibrant life.

We put people's well-being front and center, and have been doing so for over 23 years. The name ORGANO is derived from the living organism. The Stümpfl family from Tittling in the Bavarian Forest are the founders of this company, which is now in the safe hands of the second generation.

ORGANO's mission is a holistic concept for greater well-being for both humans and animals.

HEALTHY Lifestyle. Home. Work.

Our family company ORGANO

Family Stümpfl has worked in the health sector for over 40 years, and runs the Stümpfl naturopathy practice in Tittling. Thanks in large part to the therapeutic knowledge gained from real-life practice, it is possible to constantly improve the individual areas of application of ORGANO.

The origins of ORGANO

The start of the 1990s heralded the initial contact with Rudolf Herde, eminent authority on radiesthesia and developer of the first ORGANO products. In the three years up to Herde's death, he passed his invaluable knowledge from his research on to Ludwig Stümpfl, founder of ORGANO, who thus gained a horizon of experience spanning almost 60 years in this area.

Slowly but steadily, the ORGANO company, established in 1999, grew from a regional family enterprise to a company that now markets its portfolio of services throughout the whole of Europe.

The energetic knowledge is implemented in various products and programs that are specifically tailored to their respective purpose and that represent the company's practical know-how.

Quality and fairness

Quality and fair working conditions are of great importance to us. This is why every single ORGANO product is made in Germany. After manufacture, our products undergo quality control carried out by us, and only once they have passed this are they approved.

STÜMPFL
NATURHEILPRAXIS

At our naturopathy practice, our aim is to activate the body's natural healing powers and support them with the help of natural healing remedies.

This is why people, with all their facets, are at the heart of what we do. We don't just treat the symptoms of an illness that are currently observable – we take the medical history, life circumstances, diet and mental health of our patients into account. To be clear: we do not view naturopathy as an alternative to conventional medicine, but believe that the combination of the two holds the potential for an ideal and highly effective healing process. Drawing on all of this knowledge, we developed a treatment method that is individually tailored to each patient for the promotion of their health.

What is more, 40 years of practical experience from our own naturopathy practice provides us with the opportunity to constantly improve our ORGANETIK seminars and continually enhance our ORGANO products.

In our naturopathy practice, we offer various therapies from the field of alternative medicine that we consider to be highly effective based on our experience and professional expertise.

Our most well-known and most frequently implemented therapies and specialist areas are:

- » **ORGANETIK**
- » **Acupuncture massage**
- » **Matrix therapy**
- » **Colon hydrotherapy**
- » **Osteopathy**

Seminars: humans

In the ORGNETIK seminars: humans, you learn how you can use ORGNETIK to find and release blockages at the physical, mental and spiritual level of a person.

The ORGNETIK fundamental training consists of four individual seminars that build on one another and are divided as follows:

All
info and
registration at
organo.de

Seminar A

In this seminar, you learn about the fundamental principles of ORGNETIK as well as the practical use of the ORGANO sensor and ORGNETIK using the basic structures of the chakras – spine – glands – organs.

Seminar B

Alongside the physical level, in seminar B we predominantly address the mental and spiritual level. You learn that burdens such as emotions or trauma are stored in our subconscious and can be the root cause of various symptoms.

Seminar C

In this seminar, we focus on the details of the method. Here we work with anatomical images and deal with the cells and the cellular environment, i.e. the matrix. In addition, we also address the energetic system and the craniosacral system.

Seminar D

We use the knowledge from seminars A, B and C to create an individual treatment concept for your clients. The gut as the root of our health and the immune system are the subjects of the final intensive seminar. We provide you with practical tips that enable you to get started with your ORGNETIK practice as soon as you have received your certificate.

Seminars: ORGANO feng shui

A holistic energetic concept also involves taking the living environment of people and animals into consideration.

To be able to optimize the energetic state of a human or animal in a long-lasting manner, in addition to body, mind and spirit, the environment must also be free from negative influences.

In the course of our ORGANO feng shui seminars, three consecutive seminars teach the optimization of our living environment:

Feng shui seminar 1

In this seminar, you learn the basic principles of our ORGANO feng shui analysis. This involves the observation of the energies of a plot of land and above all the interference fields in a house, how to find these and how we can implement various ORGANOs to neutralize them.

Feng shui seminar 2

In this seminar, it's all about the flow of energy. Does enough energy enter the house and is this energy able to be distributed evenly throughout the house? These are the central topics of this seminar. This is also where we discuss negative influences from people and learn appropriate harmonization techniques.

Feng shui seminar 3

In the final feng shui seminar, you familiarize yourself with bagua (the eight areas of life). We show you how you can draw the bagua areas onto your floor plan and use the ORGANO Bagua to not only balance it out, but in fact activate it for the individual residents. A practical example using a seminar participant rounds out our ORGANO feng shui training, to ensure that you are ready to get started with your work as soon as you receive your certificate.

Seminars: animals

In our ORGANETIK seminars: animals, you learn how you can use ORGANETIK to find and release blockages at the physical, mental and spiritual level of an animal.

Establish a high-energy environment for living & working

Is your living and working environment a perfect place in which to feel your best, or do you sometimes feel like “changing out the water”?

If a person or even an animal is exposed to negative pressures in his or her surroundings, this can have a strong adverse effect not only on the energy status, but also on the feeling of well-being.

The comprehensive range of services offered by ORGANO provides the ideal solution for optimum “living and working”.

1 Three steps for an optimum living and working environment

In the first step, we create a living **and working environment that is free from radiation**. Harmful external radiation influences and negative geopathic charges are harmonized.

Radiation-free living & working

ORGANO
Power +
Mobile

In the next step, we move on to **optimizing the energies in the living and working spaces**. How is the energy distributed and how much energy reaches the individual rooms? Specific measures are implemented to improve the flow and the quality of the energy.

Energy-optimized living & working

ORGANO
Bagua +
Chi

Our bodies are made up of 70% water. This is why in the last step, it is particularly important to pay attention to the quality of our drinking water to provide an ideal supply for our bodies. With our ORGANO water, **energetically powerful water flows from your tap at all times**.

Water: the elixir of life

ORGANO

This is why we recommend an individualized sleeping and workplace analysis

The area in which you sleep is the most important room in the house, since body and mind regenerate in sleep more than anything. Optimum recovery can only take place in a positive environment. If unfavorable influences put a strain on our sleep for a prolonged period of time, this robs us of energy.

Our holistic sleeping area analysis consists of the individual observation of technical and geopathic zones of interference as well as the layout of the sleeping area.

Similar principles apply to the workplace or business premises. It has been shown that substantially better work is done in a harmonious working environment; this is also true in terms of employee satisfaction, absences and employee retention.

ORGANO offers many options for eliminating imbalances so that a feeling of well-being and satisfaction become second nature in your own four walls or at the office. After all, only in a setting in which the energy is right are we able to recharge our batteries, stay healthy and be successful.

Radiation-free living & working

Radiation-free
living & working

ORGANO
Power +
Mobile

We can neither smell nor taste it, neither hear nor see it, and yet we are constantly surrounded by it – radiation!

Day in and day out, we are exposed to a whole host of radiation influences in our living and working environment – these can be of both technical or geopathic origin.

Treat your body to a living and working environment free from radiation influences. By implementing the measures we demonstrate for you over the next few pages, you create a positive energy field in which you can feel good and in which your body and mind can optimally regenerate.

Radiation is all around us -
every day, everywhere

ORGANO Power

Electrical currents generate radiation energies inside the house, e.g.

- » while traveling to outlets via the electric cables in the house
- » via electric household appliances that consume electricity
- » when creating electricity using private photovoltaic systems

On average, a single-family home has approx. 2,000 meters of electric cables inside its walls. We make use of this enormous network to establish a positive energy field throughout the entire living and working area with ORGANO Power.

Also available for photovoltaic systems

The installation is incredibly quick and easy. Place the ORGANO Power in any given outlet – and you're done!

One ORGANO Power is usually sufficient for a single-family home or office building. The only requirement is that there is only one electricity meter.

- ✓ Relax while you live, sleep and work
- ✓ Simple to use
- ✓ Can be taken with you to your place of work or on trips

ORGANO Mobile

External technical radiation is constantly increasing. This is in part due to the growing number of transmission towers, since 5G technology means that significantly more transmitter stations will be required. But in addition, the kind of large windows that are common in modern buildings not only allow bright sunlight into interior rooms, but also many other types of radiation.

You can carry out the installation yourself very quickly and easily. Ideally, you should place your ORGANO Mobile near to a window on a windowsill, a sideboard or your office desk.

The effective energetic radius is at least 30 m in indoor spaces. For single-family homes, apartments and small office spaces, one ORGANO Mobile is usually plenty.

- ✓ Flexible scope of application
- ✓ Positive feeling in your house or apartment
- ✓ Simple to use

ORGANO Wireless

Our daily lives are filled with more and more technical devices that require WiFi or Bluetooth. We talk on the phone using our smartphones or wireless phones, use WiFi to surf the web, listen to music via wireless speakers or earbuds and allow baby monitors to watch over our children's rooms...

As a result, the technical radiation in our indoor spaces is constantly on the rise.

Attaching ORGANO Wireless to your devices emitting radio frequencies is a quick and easy task. Simply peel off the adhesive film and stick it on your device.

Depicted

- ✓ Relax while you use smartphones and wireless phones
- ✓ Feel better when using baby monitors and devices worn close to the body
- ✓ Simple to use

ORGANO Geo

Geopathic zones of disturbance can have an impact on our well-being. One example of this are detrimental water veins, of which by now practically everyone has at least heard mention. Water attracts energies from its surroundings and transmits this – negative energies included. In the long term, these energies can be harmful for people, animals and the environment.

Detrimental water veins should be avoided, or their interference permanently suppressed.

The ORGANO Geo is installed in the corresponding disturbance zone. The mounting option provided makes it possible to place it conveniently and discreetly on any bed frame or below your desk.

Tip! We recommend placement by a trained ORGANO feng shui advisor as part of a sleeping area analysis.

- ✓ Harmonizes water veins and earth radiation
- ✓ Simple to use
- ✓ Can be taken with you to your place of work or on trips

ORGANO Auto

Rush-hour congestion and traffic jams, driving on the highway and long distances in the car – all of this demands our full attention and concentration, and saps a good deal of our energy. Once we reach our destination, we often feel tired and drained.

With ORGANO Auto, you can enjoy a pleasant driving experience once more:

- ✓ Improved awareness and concentration
- ✓ Used for technical radiation energies in your car
- ✓ Relax while you drive and arrive rested

Simply slot the ORGANO Auto into your cigarette lighter.

Energy-optimized living & working

Regeneration is part of our performance. To be able to perform, our bodies need to be able to recharge their batteries with enough energy.

But reality often looks very different: We roll out of bed in the morning and, despite plenty of sleep, still feel weak and lethargic.

Energy optimization with ORGANO means more energy and better energy.

Every floor plan and every living space is just as individual as its owner. With ORGANO, we establish an energy field in which people can recharge their batteries and in which their personal and professional goals can be activated.

LOADING ...

ORGANO Chi

Once we have successfully eliminated the disruptive energies in the living and working spaces, we now want to improve the flow of energy. In Chinese, energy is known as chi. This chi should be distributed evenly throughout our living and working environment.

If we sleep or work in rooms that have little energy, our own energy reserves cannot be properly refilled there. Why certain rooms do not retain energy may be due to a number of reasons:

- » Energy cannot be distributed
- » Energy is lost
- » Energy does not enter the house

The illustration shows how the energy in each room, which predominantly enters the living space via the front door, cannot be evenly distributed. Barely any energy reaches the bedroom.

Not only do the ORGANO Chis bring energies into the house, they also distribute them evenly and keep them in the house.

The first step involves conducting an analysis of the energy flow to determine what energetic weaknesses are present in the living or working space. This guides the placement of the ORGANO Chis, with the purpose of:

- ✓ Activating energies in the room
- ✓ Distributing energies evenly within the room
- ✓ Preventing the loss of energy

ORGANO Bagua

In classic feng shui, there are 8 areas of life, known as the baguas. Each one represents important energies. These include, for example, family and health, partnership and relationships, or one's personal journey and career.

The ORGANO Bagua improves the energy of the 8 areas of life, activating these areas and improving the quality of their energy. The aim of the ORGANO Bagua is to organize all the areas of life in a harmonious and powerful way, so that the inhabitants can profit from their energy.

What is special about this is that in addition to activating the areas of life in general, the individual goals, desires and thought energies of the inhabitants of the house can also be stored in the ORGANO Bagua. This gives the ORGANO Bagua its very own personalized touch.

- ✓ Establishes an even quality of energy in the living spaces
- ✓ Personal goals can be activated in the ORGANO Bagua
- ✓ Easy application near to the center of the apartment or house

“We shape our buildings.
Thereafter they shape us.”
Winston Churchill

Water – our elixir of life

Water is our most important nutrient. The human body consists of approximately 70% water, while for the brain, this is as high as 80%. Along with our energy supply, the balance of water in our body is the most important building block for our ability to focus and perform; this is also how toxic waste material is eliminated from our body.

This alone is reason enough to optimize the quality of the water we consume on a daily basis. People have put their trust in the healing power of water since the dawn of time. They use healing stones in jugs of water or drink the water from renowned holy springs, such as Lourdes water.

With his one-of-a-kind water photography, Dr. Masaru Emoto from Japan was able to demonstrate that not all water is equal. Different water has different energy, and therefore a different quality.

With ORGANO, you can turn your regular tap water into revitalized, energizing water.

Without water, we're all nothing

ORGANO Water

ORGANO Water transforms your tap water into revitalized, energizing water. The unique process of ORGANO impulse technology passes energy from the ORGANO Water on to the water flowing past, without actually touching it directly.

ORGANO Water gives your water a delicate, soft flavor. The supply directly from the tap is simple, convenient and saves a tremendous amount of money, materials (especially environmentally harmful plastic), resources, transport and so on.

The users of ORGANO Water include both private households as well as businesses. For hotels, restaurants and wellness facilities, the use of ORGANO Water is a special quality feature that they are proud to communicate to guests.

- ✓ Revitalized, high-energy water
- ✓ Easy DIY installation without costs
- ✓ No servicing or maintenance necessary
- ✓ Sustainable and conserves resources: Saves money, materials, transport and protects the environment

In a matter of minutes, you yourself can install your ORGANO Water on the main water pipe or on any tap you wish.

When installing the ORGANO Water on the main water pipe, we recommend installing it after the water meter and filter units. This guarantees 100% transmission of the energy to the water.

The mounting for installation is included in the delivery.

Mobile ORGANO water revitalizer

Let's start with the best news: A mobile ORGANO water revitalizer is included when you purchase ORGANO Water. But it can also be ordered individually. This way, you have your powerful tap water with you wherever you go.

The mobile ORGANO water revitalizer allows you to invigorate water in bottles, jugs or glasses. In just 3 – 5 seconds, the exact same energies are transferred to the water as when you use ORGANO Water on your tap water.

With its compact size, the mobile ORGANO water revitalizer fits in every bag. Whether in the office, dining out or traveling, now you can add vitality to your tap water wherever you go.

Care: Not dishwasher-safe.
Product warranty: One year material warranty, lifelong duration of effect.

- ✓ Revitalized water – any time, anywhere you go
- ✓ Transfers energies in 3-5 seconds
- ✓ Fits in every bag
